Academic Projects

2021 - 2022

Title : JOB PORTAL || Career Vibe || PHP

Description: "Career Vibe is a job portal built with Laravel, HTML, CSS, AJAX, and SQL to simplify job applications. It provides easy access to job listings, letting users search, apply, and manage applications seamlessly. With a sleek design and real-time updates, Career Vibe connects employers with qualified candidates, streamlining the hiring process for both sides."

Title : BLOG APP || BLOG || HTML CSS JS

Developing a dynamic blog application using HTML, CSS, and JavaScript. The app allows users to create, edit, and display blog posts with a responsive design. Implementing interactive features to enhance user experience and improve content presentation.

Title:Car Rental || JAVA ||OOPS

Designed and developed a Java-based car rental application adhering to Object-Oriented Programming principles. Utilized Java's robust features to implement core functionalities such as vehicle booking, inventory management, and user authentication. Employed OOP pillars - encapsulation, inheritance, and polymorphism - to ensure modularity, extensibility, and maintainability of the codebase."
